

For over 30 years, Safari has delivered and continues to provide a full range of high quality, modular, workspace partition systems that can be found in blue-chip private and public sector organizations across 58 countries. Our Workspace Partition solutions have repeatedly met the high expectations of its users in an extensive number of applications including: architectural, design, healthcare, medical, data centres, electronics, automotive, general industrial, education and government sectors.

Safari Office System is one of Malaysia's leading office system solutions innovator in seating, desking and partition solutions. Our extensive investment in R&D has developed innovative stationary and fixed, operable and movable, and workspace partitions that are built on a modular system of highly durable, variable-height aluminum profiles – 50mm, 70mm and 80mm.

Specifically designed to optimize valuable floor space, all our Partition solutions incorporate interchangeable components that innovatively address issues of space, privacy, collaboration, zoning, group and individual productivity and performance, as well as styling aesthetics.

Together with superior cable management features and safety features, our partition solutions can be easily and seamlessly integrated with our workstation solutions and seating solutions to deliver a quality workspace system that combines strength, durability and modern design.

HOW TO CUSTOMIZE YOUR OWN WORKSPACE PARTITIONS

A modular office partition system offers you a way to divide large, noisy office spaces into private work areas without building permanent walls. Safari's solutions, can help you create a more efficient workspace with a wide selection of free standing or panel-mounted modular office partition systems and a host of furniture and accessories to fit into your budget and meet your employees' needs.

Safari offers a variety of options when it comes to creating high performance work areas. Choose from acoustical or non-acoustical in various heights and widths, colours and fabric materials. Our partition profiles come in highly durable aluminum and can be finished off with your choice of glass, laminate wood, stained glass or a natural wood or veneer. Finally, explore our selection of desks, cabinets and other accessories to complete your partition system.

We know that time is money. That's why we have created this easy reference guide to help you quickly determine the style and configuration of workspace partitions that are best suited to your business and your way of working. You may choose a design theme from Step 1 and then let our sales consultants take it from there.

Alternatively, you can also directly proceed to Step 2 to create your own look. Whichever way you choose, the flexibility and modularity of our systems will give you the freedom to get creative in transforming your workspace.

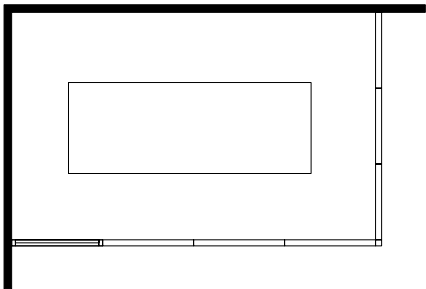

Step 1 – Choose The Look You Want

The look you choose for your workspace can dramatically influence how people perceive your business or organization. We have created four signature themes – Industria, Luxe, Moda and Neutra – to simplify the process for you. Just select the design theme you like best and let our sales consultants guide you on customizing the specifications for your office.

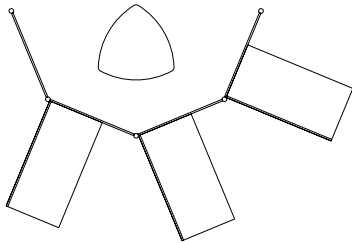

The INDUSTRIA theme is inspired by the technological age we live in. We have created a colour palette of silver and grey, and tastefully matched it with the use of perforated panels in complement with matt aluminum profiles and clear/translucent polycarbonate. The resulting look is a fresh, modern industrial feel with inspiring clean lines. It is ideally suited to businesses involved in technology.

Industria

80mm panels for maximum height and greater modular flexibility
Choice of glass panel, fabric panel or wooden panel tiling system
Flexible design and durable construction

135° configuration with pole system maximizes space utilization
22mm panel creates a slim and elegant profile
Choice of panels, finishes and fabrics

The LUXE theme is all about luxury and restrained elegance. The mix of dark and rich tones in the use of wood, fabric and leather are perfectly matched with the use of gleaming glass and chrome-finished aluminum. When further accessorized with plush carpets and various objet d'art, the look becomes thoroughly distinguished and eminently suitable as a director's working environment.

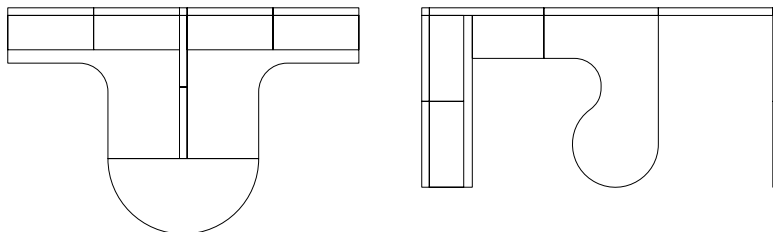

Luxe

Best-in-class frame and tile solution

70mm panels for maximum cabling capacity

Versatile configuration with add-ons such as storage and panel options

Choice of panels, finishes and fabrics

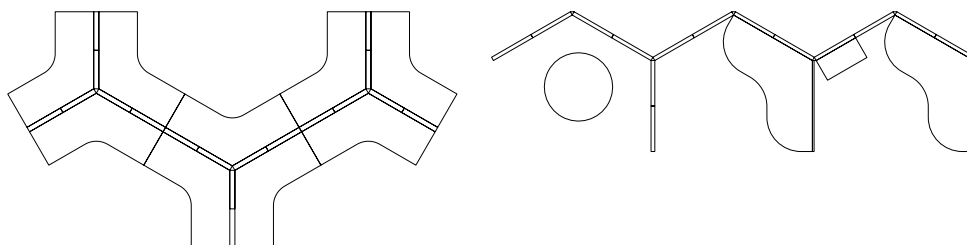

The MODA theme creates a high energy environment with its use of a vibrant colour palette in tandem with perforated or textured boards, polycarbonate panels, and anodized or coloured aluminum profiles. The resulting look is both matt and polished, totally contagious, and perfectly suited to business and offices that want to make a confident, stylish, modernist statement.

Moda

120° pole configuration to suit various environments

Contemporary honeycomb workspace layouts

Versatile system with multiple partition thickness and configuration options

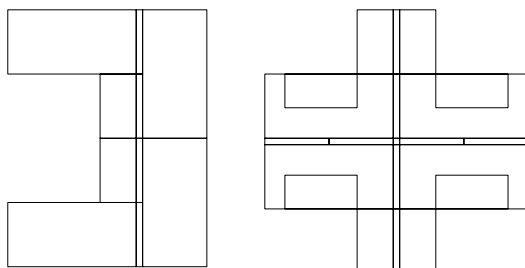

The NEUTRA theme is about mutuality and cooperation. To create a reassuring and nurturing work environment, the look employs a combination of a muted and pastel colour palette working hand in hand with soft board and fabric panels and supported by powder-coated aluminum profiles. It is ideally suited to a working environment that has a broad spectrum of people.

Neutra

50mm panels for an elegant slimline look

Versatile configurations maximizes space utilization

Easy installation and space planning with optional add-ons such as storage and panel options

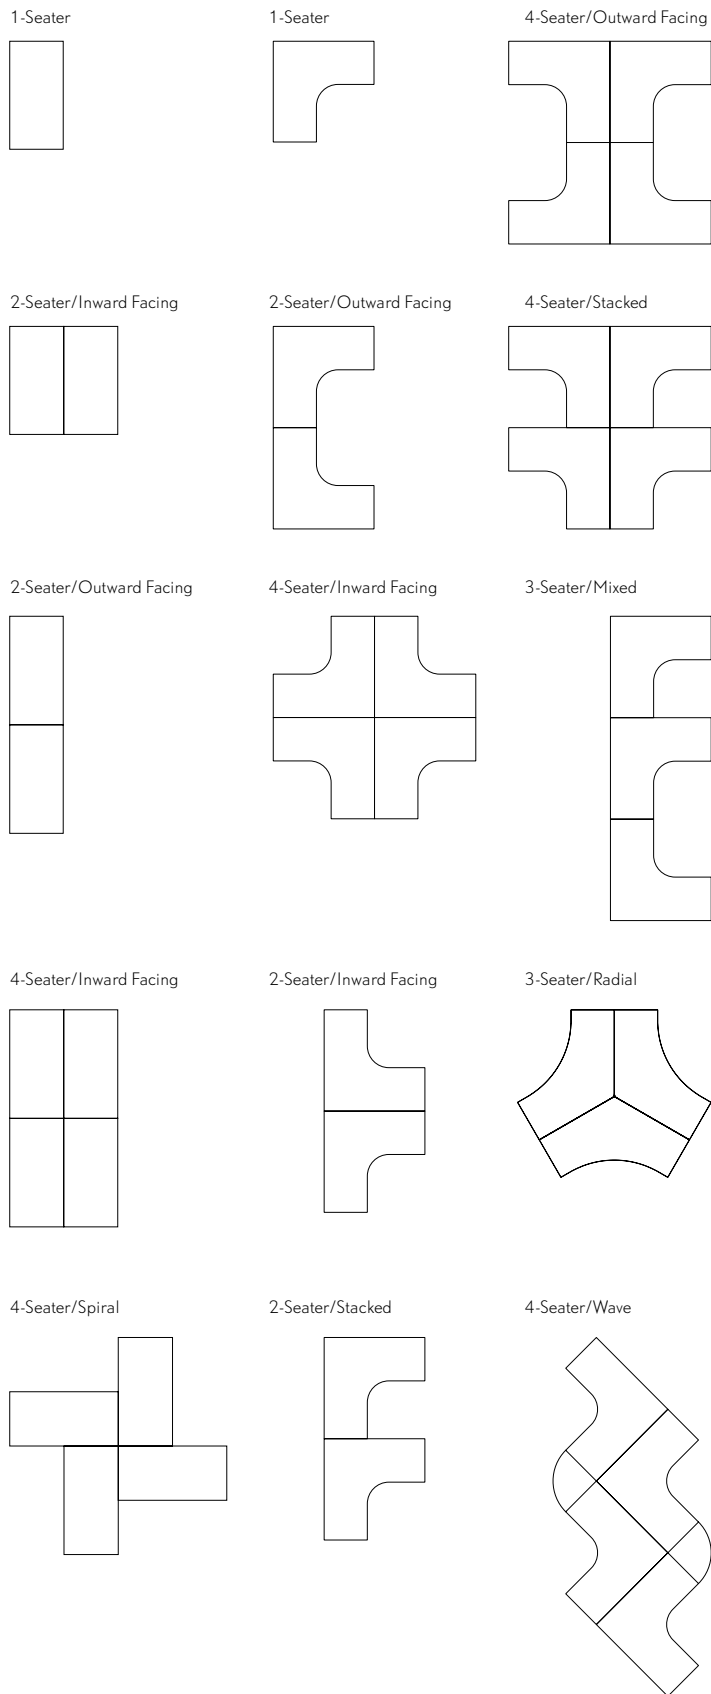

Step 2 — Customize Your Specifications

Once you have selected your design theme in Step 1, you need to determine the specifications of the different component parts. Our sales consultants will help you with the relevant steps outlined here. Alternatively, if you prefer to create your own theme, the following five steps will also allow you to get creative.

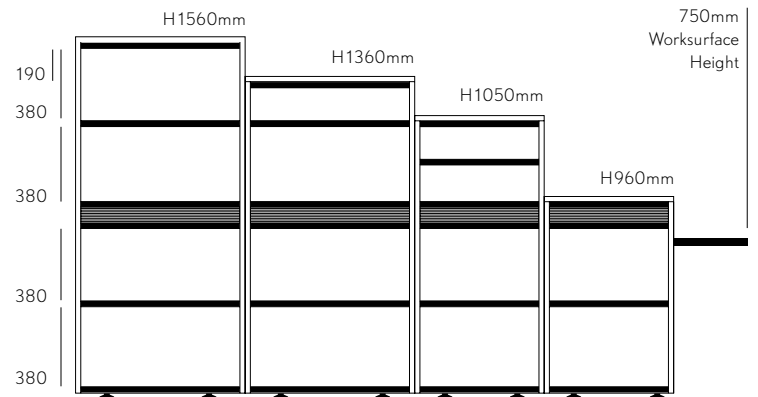

Step 1 — Layout Configuration

Remember that choosing the right layout configuration depends on the number of employees you need to accommodate against a given floor area.

Step 2 — Partition Height & Width

The size of Partitions determine the degree of personal privacy and overall visual spaciousness of an office.

Partition Height : 960mm

- 300mm x 50mm x 960mm
- 450mm x 50mm x 960mm
- 500mm x 50mm x 960mm
- 600mm x 50mm x 960mm
- 700mm x 50mm x 960mm
- 750mm x 50mm x 960mm
- 800mm x 50mm x 960mm
- 900mm x 50mm x 960mm
- 1000mm x 50mm x 960mm
- 1050mm x 50mm x 960mm
- 1200mm x 50mm x 960mm
- 1350mm x 50mm x 960mm
- 1400mm x 50mm x 960mm
- 1500mm x 50mm x 960mm

Partition Height : 1360mm

- 300mm x 50mm x 1360mm
- 450mm x 50mm x 1360mm
- 500mm x 50mm x 1360mm
- 600mm x 50mm x 1360mm
- 700mm x 50mm x 1360mm
- 750mm x 50mm x 1360mm
- 800mm x 50mm x 1360mm
- 900mm x 50mm x 1360mm
- 1000mm x 50mm x 1360mm
- 1050mm x 50mm x 1360mm
- 1200mm x 50mm x 1360mm
- 1350mm x 50mm x 1360mm
- 1400mm x 50mm x 1360mm
- 1500mm x 50mm x 1360mm

Partition Height : 1760mm

- 300mm x 50mm x 1760mm
- 450mm x 50mm x 1760mm
- 500mm x 50mm x 1760mm
- 600mm x 50mm x 1760mm
- 700mm x 50mm x 1760mm
- 750mm x 50mm x 1760mm
- 800mm x 50mm x 1760mm
- 900mm x 50mm x 1760mm
- 1000mm x 50mm x 1760mm
- 1050mm x 50mm x 1760mm
- 1200mm x 50mm x 1760mm
- 1350mm x 50mm x 1760mm
- 1400mm x 50mm x 1760mm
- 1500mm x 50mm x 1760mm

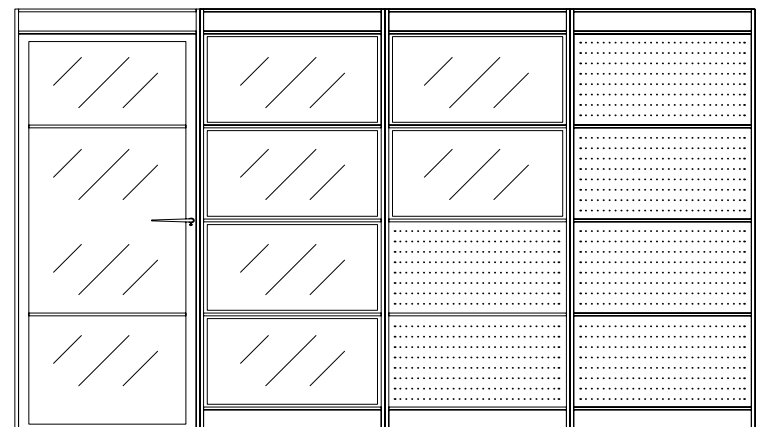

Partition Height : 1160mm

- 300mm x 50mm x 1160mm
- 450mm x 50mm x 1160mm
- 500mm x 50mm x 1160mm
- 600mm x 50mm x 1160mm
- 700mm x 50mm x 1160mm
- 750mm x 50mm x 1160mm
- 800mm x 50mm x 1160mm
- 900mm x 50mm x 1160mm
- 1000mm x 50mm x 1160mm
- 1050mm x 50mm x 1160mm
- 1200mm x 50mm x 1160mm
- 1350mm x 50mm x 1160mm
- 1400mm x 50mm x 1160mm
- 1500mm x 50mm x 1160mm

Partition Height : 1560mm

- 300mm x 50mm x 1560mm
- 450mm x 50mm x 1560mm
- 500mm x 50mm x 1560mm
- 600mm x 50mm x 1560mm
- 700mm x 50mm x 1560mm
- 750mm x 50mm x 1560mm
- 800mm x 50mm x 1560mm
- 900mm x 50mm x 1560mm
- 1000mm x 50mm x 1560mm
- 1050mm x 50mm x 1560mm
- 1200mm x 50mm x 1560mm
- 1350mm x 50mm x 1560mm
- 1400mm x 50mm x 1560mm
- 1500mm x 50mm x 1560mm

Full Height Plan Grid Wall

Glass Door

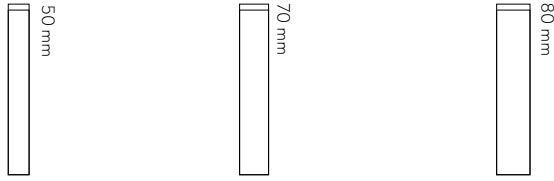

Full Height Glass Panel

Full Height Half Glass Fullboard or Fabric

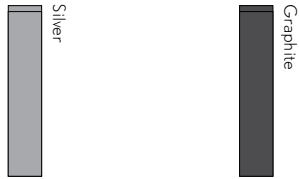

Full Height Fullboard or Fabric

Step 3 — Profile Thickness

The thickness of a profile determines the stability of the framework. In a freestanding workspace with minimum seating, a thicker profile is advised. In a multiple-seating arrangement with interlocking layout configurations, a slimmer profile may be appropriate.

Colour Options

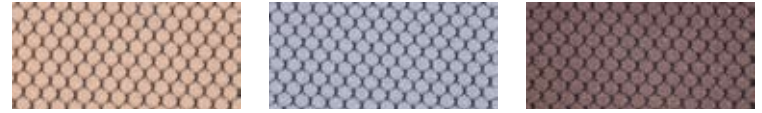

Step 4 — Panel Configuration

The type of panel determines the degree of usability and privacy of each workspace. Different panels have different acoustical properties, different levels of personal privacy and different accessory options.

Step 5 — Fabric Colours

Colours can significantly influence the working mindset. Choose colours with restraint.

H 01 — Dove Beige

H 02 — Cool Grey

H 03 — Umber

H 04 — Dary's Grey

H 05 — Iceberg

H 06 — Tangerine

H 07 — Olivine

H 08 — Olive Drab

H 09 — Sandy

H 10 — Salmon Pink

H 11 — Ultramarine

H 12 — Tangelo

H 13 — Crimson

H 14 — Coral Red

H 15 — Dark Sienna

H 16 — Smoky

Colour may vary slightly between dye lots.

SAFARI'S CUSTOMIZABLE SOLUTIONS DELIVER ENDLESS POSSIBILITIES

At Safari, we welcome all challenges for customized solutions. Our clients work with an experienced team at the design & planning phase to customize our Partitions to their specific needs. Environmental factors, security, fire protection and utilities can be incorporated into every modular partition solution, so as to optimize space, increase functionality, meet budgets as well as deliver aesthetic appeal.

Our manufacturing process then ensures every partition system is made to exacting quality standards using high volume production techniques on state-of-the-art production equipment. All partition frames use aluminum extrusion with epoxy finish.

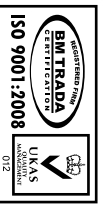

The unique range of innovative stationary and fixed, operable and movable, and workspace partitions can be designed to individual project specifications. Specialist components can also be developed for different environments.

The partition design and partition manufacturing infrastructure at Safari's head office facilitates cost-effective production and installation capabilities for single unit specialist partition projects through to complex multi-site partition systems where quality, consistency and on-time installation are essential.

Whether it's a standard partition system you are looking for or a more challenging architectural design or you wish to see implemented, Safari has the vision to deliver innovative partition solutions, whatever your project needs.
